AC FAST CHARGERS

Best Suited For

- Hospitals
- Gyms & Clubs
- Residential Associations
- Resorts & Hotel Gyms

Why AC Chargers

- Lower installation cost
- No operator required
- Ideal for 2–6 hour parking duration
- Consistent daily usage

Revenue Model

- Pay-per-kWh energy sales
- Software-tracked billing

DC FAST CHARGERS

Best Suited For

- Highway-side properties
- Restaurants & fuel stations
- Commercial parking hubs

Key Advantages

- Rapid charging (short dwell time)
- High daily energy turnover
- Strong repeat traffic

Ideal Customers

- Inter-city EV users
- Commercial fleets
- EV taxis & buses

INVESTMENT OPPORTUNITIES

Business Model

- EV charging franchise
- GravityInc sets up, operates & manages
- Software-enabled energy sales (₹/kWh)

Key Benefits

- No manpower required
- No marketing expense
- Daily rising energy demand
- Government-aligned future sector

ROI

- ~20% usage
- Capital recovery within ~30 months

TECHNOLOGY & SOFTWARE

ionage

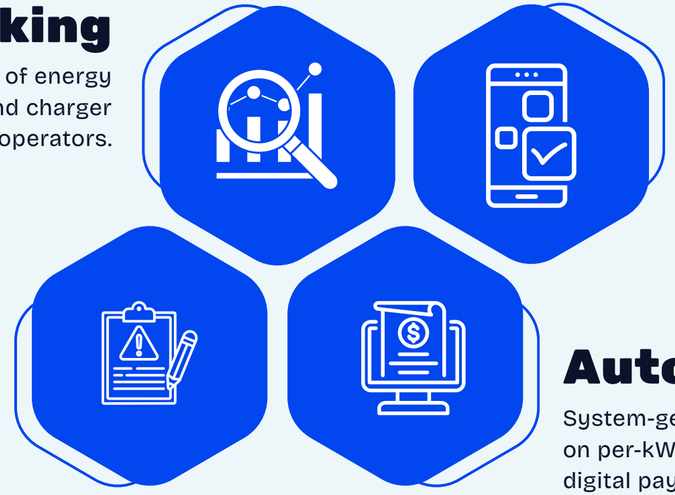

72,000+ users

ESYGO
Choose The Right Power

10,000+ users

Live usage tracking

Real-time visibility of energy consumption, session status, and charger utilization for both users and operators.

App-based charging

Users can locate chargers, start and stop charging sessions, and make payments directly through a mobile application.

Remote monitoring & reports

Centralized dashboard to monitor charger health, performance, and revenue, with detailed analytical reports accessible remotely.

Automated billing

System-generated, accurate billing based on per-kWh consumption with seamless digital payment integration.
